

Parenting Special Children

Let's Get Creative! For Adoptive Families

Building social skills through different forms of art

Parenting Special Children runs a monthly group for adopted children aged 5-14 who live in Berkshire. We have a limited number of places for non-Berkshire children. Children & Young People are split into age groups to attend workshops with music & play therapists, who have training & extensive experience in attachment & therapeutic arts.

Parents/Carers will be required to stay for the duration of the session in the room next door. This will be an opportunity to speak to others & relax with a cup of tea/coffee.
